# Glossary

**Adjustment budget** – Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.

**Allocations** – Money received from Provincial or National Government or other municipalities.

**Budget** – The financial plan of the Municipality.

**Budget related policy** – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy and credit control and debt collection policy.

**Capital expenditure** - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

**Cash flow statement** – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

**DORA** – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

**Equitable Share** – A general grant paid to municipalities. It is predominantly aimed at assisting with free basic services.

**Fruitless and wasteful expenditure** – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

**GFS** – Government Finance Statistics. An internationally recognised classification system that facilitates a like for like comparison between municipalities.

**GRAP** – Generally Recognised Accounting Practice. The new standard for municipal accounting.

**IDP** – Integrated Development Plan. The main strategic planning document of the Municipality.

**KPI's** – Key Performance Indicators. Measures of service output and/or outcome.

**MFMA** – The Municipal Finance Management Act – No. 53 of 2003. The principal piece of legislation relating to municipal financial management.

**MTREF** – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current year's financial position.

**Net assets** – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets have been sold/recovered and all liabilities paid. Transactions that do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

**Operating expenditure** – Spending on the day to day expenses of the Municipality such as salaries and wages.

**Rates** – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

**SDBIP** – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

**Strategic objectives** – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

**Unauthorised expenditure** – Generally, spending without, or in excess of, an approved budget.

**Virement** – A transfer of budget.

**Vote** – One of the main segments of a budget. The structure is for reporting requirements and links the accounting performance both to the IDP and to the responsible officials. The high level structure is included in the budget documentation shown in the table below.

# PART 1 – ANNUAL BUDGET

## Section 1 – Mayor's Report

I hereby present the adjustment budget for the 2014/2015 financial year for Council's consideration.

Our budget complies with all budget regulations and prescriptions. The budget for the year, after deducting- and reconciling non-cash items, reflects a net cash inflow.

This in itself is a great achievement and is mainly a result of serious spending controls as well as sound financial control and discipline.

The positive cash flow situation does not mean that the municipality has resolved its financial problems, it is a huge relief that we will be able to fulfil our basic commitments for the 2014/2015 financial year. The municipality will however still experience serious financial problems, resulting into service delivery constraints. There still remains doubt whether the municipality can be regarded as a going concern.

Unfortunately the National as well as the Provincial Treasuries and the various Departments of Local Government seem unable to understand the seriousness of the financial position of this municipality and District municipalities in general. However after numerous high level encounters with Provincial- and National Treasury funding was provided as part of the Adjustment Budget to engage on a costing- and financing project to advise Provincial- and National Treasury on the financing of District Municipalities.

The reason for the tabling of an adjustment budget is fully disclosed in the draft budget documentation. What clearly stands out is the fact that if the National Government does not increase the Equitable Share payable to this municipality, or implement a new source of revenue for District Municipalities, this municipality will not be able to deliver its core functions at an acceptable level. The fact of the matter is that this municipality will be unable to meet any of its commitments within the near future or alternatively will be unable to meet the service delivery needs and/or demands of the Overberg District community.

Although the equitable share has been increased according to the new DoRA, the increases as indicated are not enough to ensure the future sustainability of this municipality. The increase in the equitable share is very low comparing to the salary- and other inflation driven expenditure.

At this stage the municipality is not generating sufficient funds to meet its operating requirements. **Table 1 – Revenue and Expenditure** is a clear illustration thereof.

**Table 1 – Revenue and Expenditure**

It has to be remembered that we have to make provision for post-retirement benefits and other GRAP requirements that are not cash oriented (cash-backed) items. The net result of the income and expenditure therefore realises a net deficit, but the net result of the cash flow is positive. The ideal however would be to have a greater cash inflow to ensure the repairs and maintenance, and replacement of existing assets. The municipality might however in future require cash-backed provisions.

We must remember that the current financial position is the result of poor financial management over a couple of years and it is impossible to rectify this within a year or two.

This municipality is largely dependent on government grants and support. If the grants stay the same and the annual increases stay as low as they have been over the last couple of years, it will prove the concerns about the going concern assumption to be true. **Table 2 – Revenue source** illustrates the reliance on government funding.

### **Funding and cash flows**

In terms of the MFMA a budget must be cash-funded and may only be approved if it is cash-funded, including the use of prior years' cash surpluses. It is thus the main consideration in determining whether a budget is credible.

Although this budget results in a net cash inflow, this municipality will only survive if strong financial control and discipline are applied. If no additional source of revenue can be developed, the situation will not improve, but will rather deteriorate.

The following extract from B8 indicates that there are sufficient funds available to ensure that the budget is cash-backed during the MTREF period – see **Table 6 – Cash Surplus**.

**Table 6 – Cash Surplus**

## Unforeseen and unavoidable expenditure

There was no unforeseen expenditure approved by the Mayor and incorporated into this adjustment budget since the original approved budget.

## Changes to allocations and grant adjustments

Changes to allocations and grant adjustments are reflected in the attached budget supporting documentation forms SB7 and SB8.

**Table 7 – Operating Grants Adjustment** reflects the adjustments for the financial year:

### Capital grants:

There is no budget figure for capital grants for 2014/2015.

## Recommendations

It is recommended:

- 1) That Council approves the adjustments budget; and
- 2) That Council approves the changes to the service delivery and budget implementation plan.

## **Section 2 – Budget-related Resolutions**

### **ADJUSTMENT BUDGET 2014/2015**

The resolution tabled at Council for consideration upon approval of the adjustments budget is:

#### **RECOMMENDATION:**

- a) That the adjustments budget of Overberg District Municipality for the financial year 2014/2015 as set out in the schedules contained in section 4 be approved:
  - (i) Table B2 Adjustments Budget Financial Performance (by standard classification);
  - (ii) Table B3 Adjustments Budget Financial Performance (by municipal vote);
  - (iii) Table B4 Adjustments Budget Financial Performance (revenue by source); and
  - (iv) Table B5 Adjustments Budget Capital Expenditure (by municipal vote and funding source).
- b) That the amended performance objectives as contained in the SDBIP be approved (Attached supporting documentation form SB 3).
- c) That it be noted that there are no changes to any budget-related policies.

## Section 3 – Executive Summary

### Introduction

The adjustment budget of the municipality is presented in the formats prescribed in the Budget- and Reporting Regulations. Thus, no material adjustments to the budget formats were required to the budget submission made in the preceding year.

### Effect of the adjustment

The overall changes made to the 2014/2015 budget can be best illustrated in the **Diagram 1 – Revenue Adjustment** and **Diagram 2 – Expenditure Adjustment**.

#### Revenue:

## Section 4 – Adjustment budget tables

The adjustment budget tables are attached to this document as Tables B1 to B 10.

Tables supporting the above (SB1 to SB20) are also attached and listed separately.

The Budget tables are:

- Table B1 – Adjustments Budget Summary;
- Table B2 – Adjustments Budgeted Financial Performance (revenue and expenditure by standard classification);
- Table B3 – Adjustments Budgeted Financial Performance (revenue and expenditure by municipal vote);
- Table B4 – Adjustments Budgeted Financial Performance (revenue and expenditure);
- Table B5 – Adjustments Budgeted Capital Expenditure by vote, standard classification and funding;
- Table B6 – Adjustments Budgeted Financial Position;
- Table B7 – Adjustments Budgeted Cash Flows;
- Table B8 – Adjustments Cash-backed reserves/accumulated surplus reconciliation;
- Table B9 – Adjustments Budget Asset Management; and
- Table B10 – Adjustments Budget Basic service delivery measurement.

The municipality does not have any entities for which adjustments budgets must be prepared.

## **PART 2 – SUPPORTING DOCUMENTATION**

### **Section 5 – Measurable performance objectives and indicators**

Changes to measurable performance objectives and indicators are included in the supporting tables (SB3) attached. These indicators are part of the indicators contained in the Service Delivery and Budget Implementation Plan, which again forms the basis of the performance contracts of the Municipal Manager and Senior Management.

### **Section 6 – Budget-related policies**

No changes to the budget-related policies proposed in the adjustments budget.

### **Section 7 – Overview of budget assumptions**

No changes to the budget assumptions are proposed in the adjustments budget.

### **Section 8 – Funding compliance**

The adjustments budget is cash-funded, but can be regarded as credible as the net cash result realises in a cash inflow.

Funding levels are not acceptable as cash- resources will be under pressure during the Adjustment Budget period

### **Section 9 – Overview of budget funding**

#### **Funding the Budget**

Section 18(1) of the MFMA states that an annual budget may only be funded from:

- Realistically anticipated revenues to be collected;
- Cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and
- Borrowed funds, but only for the capital budget referred to in section 17.

Achievement of this requirement in totality effectively means that a Council has 'balanced' its budget by ensuring that budgeted outflows will be offset by a combination of planned inflows.

## **A Credible Budget**

Amongst other things, a credible budget is a budget that:

- Funds only activities consistent with the revised IDP and vice versa ensuring that the IDP is realistically achievable given the financial constraints of the municipality;
- Is achievable in terms of agreed service delivery and performance targets;
- Contains revenue and expenditure projections that are consistent with current and past performance and supported by documented evidence of future assumptions;
- Does not jeopardise the financial viability of the municipality (ensures that the financial position is maintained within generally accepted prudential limits and that obligations can be met in the short, medium and long term); and
- Provides managers with appropriate levels of delegation sufficient to meet their financial management responsibilities.

A budget sets out certain service delivery levels and associated financial implications. Therefore the community should realistically expect to receive these promised service delivery levels and understand the associated financial implications. Major under-spending due to under-collection of revenue or poor planning is a clear example of a budget that is not credible and unrealistic.

Furthermore, budgets tabled for consultation at least 90 days prior to the start of the budget year should already be credible and fairly close to the final approved budget.

### **9.1 Funding of operating and capital expenditure**

As indicated in schedule B8, the municipality's budget is cash-funded. Additional pressure is also placed on cash and cash equivalents to finance a portion of the municipality's capital programme from internally generated funds in the light that the municipality is already running at a deficit with no accumulated reserves to fall back on. A large portion of cash is locked up in working capital requirements and the municipality is running the risk of cash flow problems.

### **9.2 Financial plans**

A municipal finance improvement plan was adopted by Council on 31 January 2012 in the form of a three-year support plan.

### **9.3 Reserves**

None of the reserves will be cash-backed at 30 June 2015.

## **9.4 Financial sustainability of the municipality**

The financial sustainability of the municipality is under severe pressure due to unfunded operational budget for 2014/2015, as well as material unfunded provisions.

These provisions include the following:

- Landfill site rehabilitation;
- Post retirement health care benefits; and
- Staff long service awards.

## **Section 10 – Expenditure on allocations and grant programmes**

### **Grant allocations**

Details of each grant to be received and spent are shown in schedules SB7 to SB9 attached to the report.

## **Section 11 – Allocations and grants made by the Municipality**

### **Allocations made by the Municipality**

No allocations are made by the municipality.

## **Section 12 – Councillor Allowances and employee benefits**

### **Salaries, Allowances and Benefits**

Details of councillor allowances and employee benefits are included in supporting table SB11 attached.

## **Section 13 – Monthly targets for revenue, expenditure and cash flow**

### **Monthly cash flows by source**

Supporting tables SB12 to SB17 show the adjusted monthly cash flows.

## **Section 14 – Adjustments to the quarterly service delivery and budget implementation plans – internal departments**

Supporting table SB3 indicates the major adjustments.

## **Section 15 – Annual budgets and service delivery agreements – municipal entities and other external mechanisms**

### **Entities**

The municipality does not have any entities.

### **Other service delivery mechanisms**

The municipality has service delivery agreements with external parties for the delivery of the Municipality's services.

## **Section 16 – Contracts having future budgetary implications**

The municipality does not have any roll-over contracts with budget implications.

## **Section 17 – Capital expenditure details**

Capital expenditure details are listed in Supporting Table SB18 to SB19.

## Section 18 – Municipal Manager's quality certification

I, DAVID BERETTI, Municipal Manager of Overberg District Municipality, hereby certify that the adjustments budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act and the regulations made under the Act, and that the adjustments budget and supporting documents are consistent with the Integrated Development Plan of the Municipality.
